# LESTER LEE

(626) 977-6609 ▪ lesterlee@g.ucla.edu ▪ github.com/LesterLee

## EDUCATION

**UNIVERSITY OF CALIFORNIA, LOS ANGELES** — **Los Angeles, CA**
***Bachelor of Science, Statistics and Data Science*** — Sep 2024 - Jun 2026

- Cumulative GPA: 3.5/4.0
- Relevant Coursework: Statistical Programming in R, Probability, Data Collection and Analysis, Optimization Methods

**PASADENA CITY COLLEGE** — **Pasadena, CA**
***Associate of Engineering and Technology | Associate of Mathematics*** — Jun 2021 - Jun 2024

## EXPERIENCE

**LA Tech Rising** — **Los Angeles, CA**
*Business Marketing Intern* — Aug 2025 - Nov 2025

- Collaborated with industry mentors and a peer cohort to execute a business project spanning marketing and communications, coordinating initiatives and tracking progress toward key deliverables
- Researched and tracked emerging market trends, transforming findings into actionable marketing insights and campaign strategies that guided teams in reaching target audiences more effectively

**Tenants Law Firm** — **Los Angeles, CA**
*Data Entry and Accounting Intern* — May 2025 - Jul 2025

- Streamlined daily accounting operations by automating transaction entry and reconciliation in QuickBooks, reducing manual errors by 30% and accelerating month-end close
- Resolved discrepancies by reconciling outlier transactions in Excel, strengthening audit readiness, and reporting integrity

**Shabuya** — **Alhambra, CA**
*Sales Performance Analyst Intern* — May 2024 - Sep 2024

- Analyzed reservation patterns and sales reports to identify peak dining times, optimized staffing for busy hours, reduced overstaffing during slower periods, and cut negative customer feedback by 10%
- Conducted a customer survey to gauge interest in a late-night menu, executed a one-month trial, analyzed sales and feedback to identify best-sellers, and implemented permanent weekend extended hours, increasing weekly revenue by 5%
- Partnered with Too Good To Go to repurpose unsold hot-bar items, reducing food waste and generating an additional $500 in monthly revenue

## PROJECTS

**NBA Points Prediction Model** | *R*

- Conducted data cleaning and data analysis on NBA game statistics and built a predictive modeling framework using multiple linear regression in R
- Found assists to be the strongest predictor of scoring (+1.2 points per assist) and observed that winning teams averaged 9 more points; evaluated model performance using RMSE and $R^2$

**Pizza Sales Analysis Project** | *MySQL, Tableau*

- Built a MySQL database containing 40,000+ sales transactions to enable efficient data retrieval and analysis
- Developed scripts to calculate key performance metrics, including total revenue, average order value, and top-selling products to evaluate sales performance

**Credit Card Customer Churn Analysis** | *MySQL, Python (pandas), Tableau*

- Cleaned and analyzed a dataset of 10,000+ credit card customers using Python and MySQL to identify patterns and factors associated with customer attrition
- Found account closure rates dropped from 68% for customers with fewer than 20 transactions to 6% at 60+, showing higher card usage is linked to stronger retention
- Created Tableau visualizations to identify high-risk customer segments, including multi-card holders with an 86% account closure rate

## EXTRACURRICULARS

**Data Science Club** — **Pasadena, CA**
*Member* — Sep 2022 - Jun 2024

- Analyzed financial data for S&P 500 companies and contributed to developing a machine learning model using multivariable regression to predict each company's value and long-term investment potential

## ADDITIONAL

- **Programming & Databases:** SQL(MySQL), R, Python, Databricks
- **Analytics:** Data Analysis, Data Cleaning, Data Modeling, Predictive Modeling
- **Visualization:** Tableau, Power BI, Data Visualization
- **Tools:** Excel, QuickBooks, Microsoft Office, VS Code
- **Interests:** Basketball, Pickleball, Golf, Food Blogger, Travel, Music Festivals
